Automatic film applicators

ZAA2600.HA

Automatic Film Applicator for use with Heatable Plates

User experience

Multi-language menu guidance on the touch screen with storage of various application profile settings such as application length and drawing speed.

Reliability

Reproducible, operator-independent results allow for storage of various application profile settings such as application length and drawing speed.

Versatility

Thanks to its modular construction and compact design, it can be equipped with different kits for applications like scrub resistance, washability, crocking, and scratch resistance tests.
