

## Permeability Torrent

Permeability tester for the on-site assessment of concrete quality

### Efficiency

A two-chamber vacuum cell and a pressure regulator, which ensure an airflow at right angles to the surface for rapid assessment of air permeability

### Ease of use

The unit has a user-friendly menu technique and measures the pressure increase as a function of time according to a specific sequence

### Simplicity

Calculation of the permeability coefficient  $kT$  is based on a simple theoretical model for rapid, accurate on-site non-destructive testing

## Instrument Tech Specs

<b>Measured Quantity</b>	Permeability coefficient $kT$ [10-16m <sup>2</sup> ]
<b>Instrument Firmware</b>	Data transfer capabilities to third party software
<b>Display</b>	128 x 128 graphic LCD
<b>Memory</b>	200 measured values
<b>Connections</b>	RS 232 or optional adapter to USB
<b>Measuring Range</b>	-10 °C to +60 °C

Standards & Guidelines	Description
SIA 262-1	

Present in +100 countries, we serve inspectors and engineers all over the world with the most comprehensive range of InspectionTech solutions, combining intuitive software and Swiss-manufactured sensors.
